

CONGRESS MAY PASS RESOLUTION ENDING THE WAR

Declares Senator Lenroot in Speech Criticizing Wilson

(By The Associated Press.)

WASHINGTON, March 18.—If President Wilson does not negotiate a peace treaty satisfactory to the senate, Senator Lenroot, of Wisconsin, Republican said in an address here tonight, congress may pass a joint resolution, terminating the war with Germany without a treaty, leaving American participation in the league of nations to future determination.

Senator Lenroot declared he favored the general plan of the league as proposed but would not be coerced into voting for the constitution as now drawn without amendment.

Asserting that the United States today is in "most critical situation," with American principles and ideals endangered by the plans for the league, Senator Lenroot continued:

"We are told that the president will not permit peace with Germany unless there is made as part of the peace treaty the constitution of the league as drawn in large part by Great Britain."

"We are told that this will be done to force the senate to accept without amendment this British constitution, revolutionizing our government and its foreign and domestic policies."

"In my judgment President Wilson has been more misjudged than the temper of the American people and the senate."

"I will not be coerced into voting for the constitution of the league and I am sure the senate will not be. The proposed constitution will be considered upon its merits. Regardless of whether it is coupled with the peace treaty or not, if the constitution should not be amended to protect and safeguard the interests of the United States the senate will propose such amendments as it may deem necessary."

"It does not seem to have occurred to the president that if he is not willing to negotiate a treaty of peace satisfactory to the American people congress may itself and undoubtedly will pass a joint resolution declaring the war with Germany terminated."

"Germany is whipped. While it would be desirable to have a formal treaty of peace with Germany it is not necessary."

"We can declare the war ended and go on about our business and I can confidently predict that this is what will be done if the treaty is not ratified by the senate. The proposed league of nations will then have to be considered separately if it is considered at all. By this course the United States will lose nothing for the obligations imposed upon us by the proposed league far outweigh any possible benefits coming to us."

"American does not need a league of nations so much as a league of nations needs America," said the senator in conclusion, "and the American people are willing to enter such a league provided that the legitimate interests in America are properly safeguarded, which they are not in the constitution as now proposed."

TRIBUTE PAID TO MEMORY OF CLEVELAND

NEW YORK, March 18.—Army and navy officers of high rank and men distinguished in civil life joined here today in paying tribute to the memory of Grover Cleveland on the 32d anniversary of his birth. Following memorial services in St. Paul's chapel on Lower Broadway, public exercises were held in a theater under the auspices of the Grover Cleveland association.

George F. Parker who was private secretary to President Cleveland paid a tribute to Cleveland, the man, and Judson Harmon, former governor of Ohio and attorney general in the Cleveland cabinet, and chief city magistrate William McAdoo, assistant secretary of the navy in Mr. Cleveland's second administration extolled his qualities as a statesman. A personal tribute was paid by Major General Leonard Wood, who became intimately acquainted with the former president, when as a young medical officer, duty often called him to the White House.

BRYAN 59 YEARS OF AGE TODAY

Washington, March 18.—William Jennings Bryan who has been ill for several weeks at the home of friends here had recovered sufficiently today to join Mrs. Bryan at a Baltimore hotel, where tomorrow they will celebrate Mr. Bryan's fifty-ninth anniversary.

MAKES FAST TIME

Paris, March 18.—Major General John E. B. Seeley of the British war office on Sunday flew from Folkestone to Paris a distance of 172 miles in 74 minutes, establishing a new record for the flight.

Revenue Officials Seek Decision On Beer Questions

(By The Associated Press.)

WASHINGTON, March 18.—Answer to the question as to whether beer is legally beer and whether it may contain 2 1/2 per cent alcohol without being officially considered intoxicating was sought today by internal revenue bureau officials in existing statutes, court decisions and administrative regulations but with no definite conclusion.

Pending a decision by the legal division of the bureau, and an opinion by Attorney General Palmer, Commissioner Roper declined to say what he would do in case New York brewers carry out their announced intention of resuming manufacture and sale of beer containing 2 1/2 per cent of alcohol.

The internal revenue bureau's legal experts argued that all precedents of acts of congress and of revenue bureau practices point to the rule that if beer contains one half of one per cent or more alcohol it is intoxicating and is taxable as real beer. Drinks to be "soft," "non-intoxicating" and "non-alcoholic" must contain less than one half of one per cent alcohol they said. Therefore it was argued that the president's order of last Sept. 16, forbidding the use of grain or other food products in making beer with one half per cent or more of alcohol, in any event officials said, the manufacture of beer with more than one half per cent alcohol is prohibited after May 1, under the food conservation provision of the act of Nov. 21, 1918. It was understood that New York brewers, however, did not agree with this view.

Provisions Cited. Various provisions of recent revenue acts were cited by bureau officials in support of the contention that one half per cent in the maximum for non-intoxicating beverages. The revenue act of 1917, provided a tax of \$1.50 a barrel on beer and other fermented malted liquors "containing one half per cent or more of alcohol."

It also laid a special tax on soft drinks, including "fermented liquors containing less than one half per cent of alcohol."

The revenue act passed by the last congress increases to \$6 a barrel the tax on beer containing one half of one per cent or more of alcohol. It also provides for administrative regulations governing production of non-alcoholic wines containing less than one half of one per cent of alcohol. Soft drinks in this act are described as "those containing less than one half per cent of alcohol."

Revenue regulations promulgated Feb. 6, provide that after May 1, producers of near-beer will have to qualify as "industrial distillers," since the business of brewing, it was said, can not be recognized under the act of Nov. 21, 1918, forbidding use of grain, cereals, fruits or other food products in the production of fermented malt liquors after that date. Under this regulation, makers of near-beer would be considered technically as producers of alcohol with the beverage as a byproduct.

BRITISH MONEY MARKET NERVOUS

LONDON, March 18.—Abandonment of the control of French exchange has created great nervousness in the money market here. Fears that similar action was imminent in connection with the New York Exchange caused the cable transfer rate in London to fall somewhat today. An enormous business was done in dollars around the figure of \$4.69 for a pound sterling. Some late bids were at the rate of \$4.65, notwithstanding the fact that the New York cable rate has remained at the old level of \$4.74.

AMENDMENT MADE TO BONUS PAYMENT

WASHINGTON, March 18.—Regulations governing the payment of \$60 bonus to honorably discharged soldiers were amended by the war department today to permit the acceptance by disbursing officers of a "true copy" of discharge certificates. Heretofore the original certificates were required, but it was found that many soldiers refused to part with the papers, preferring to lose the bonus rather than risk the loss of official evidence of their honorable release from the army.

DANISH CABINET HEAD WILL NOT QUIT

Copenhagen, March 18.—The Danish cabinet headed by Premier Zahle at the request of the king has withdrawn his resignation. Negotiations between political leaders have failed to solve the ministerial crisis by the formation of a coalition government and the king asked the cabinet to remain in office.

PRESIDENT IN CONFERENCE WITH ALLIED LEADERS

Main Questions Surrounding Peace are Discussed

(By The Associated Press.)

PARIS, March 18.—(By the Associated Press.)—Lord Robert Cecil after a conference with Premier Lloyd George declared tonight in behalf of the British delegation that the league of nations covenant, in the opinion of the delegation should be incorporated in the preliminary peace treaty.

BULLETIN

PARIS, March 18.—(By the Associated Press.)—Lord Robert Cecil after a conference with Premier Lloyd George declared tonight in behalf of the British delegation that the league of nations covenant, in the opinion of the delegation should be incorporated in the preliminary peace treaty.

PARIS, March 18.—(By the Associated Press.)—Announcement was made at the close of a conference today between President Wilson, David Lloyd George, the British premier and M. Clemenceau that no final decision had been taken but that all the main questions surrounding the peace conference had been discussed, that the meeting had been entirely satisfactory and that there had been no change in the plans previously announced which contemplated the completion of the peace treaty within the next two weeks including the league of nations.

The conference was an extended one lasting from three o'clock in the afternoon until six o'clock this evening. It had been intended that the meeting should occur at the white house but the program was changed and the conference was held in the apartment of Colonel House at American headquarters.

Premier Orlando, of Italy, did not attend the conference as the discussion principally concerned Great Britain, France and the United States. During the meeting Dr. Andre Tardieu of the French peace delegation and M. Leclercq, French minister of agriculture, visited the apartment of Colonel House.

Great interest is attached to the meeting owing to a report that there was a divergence in views on some of the main questions to be discussed. Great crowds gathered to witness the arrival of the heads of the various governments. The Japanese desired to know when the league of nations committee would resume its sessions as they wished again to offer an amendment terminating racial discrimination. Their purpose was not accompanied by an intimation of insistence to the point of refusing to accept the treaty without the amendment. Their views will be heard later after the neutrals have been given a hearing, which today was fixed for three o'clock Thursday afternoon. During the conference Mr. Lloyd George made known his belief he probably would be able to remain for the concluding work on the treaty.

It developed that no difference in opinion existed on the financial terms of the treaty. While no statement was made there is reason to believe that the territorial question of the league of nations figured in the deliberations. No financial decisions were reached but the general trend of the discussion was favorable and tended to dissipate any apparent divergence in the viewpoint.

RETURN TO WORK AFTER FOUR MONTHS

NEW YORK, March 18.—A compromise settlement in the controversy between the building trade employers' association of this city holding contracts in several cities throughout the country and its carpenters was announced today by state supreme court Justice P. Henry Dugro. The men recently returned to work after have been on strike for nearly four months. Under the terms of the settlement the men are to receive \$5.50 per day for shop work and \$6 a day for outside work until July 1. After that date inside men are to receive \$5.75 and outside men \$6.25 daily. The wage agreement expires Jan. 1, 1920.

470,736 DISCHARGED FROM OVERSEAS

WASHINGTON, March 18.—Figures made public by the war department today showed that 470,736 officers and men of the American expeditionary forces had sailed for home up to March 13. That number represented 24 per cent of the strength of General Pershing's forces on November 11 and left 1,178,580 in France.

Of the total returned home or on the way 176,516 were casualties, including sick and wounded. Out of 687,074 infantry in France in November, only 89,494 had been returned, while the field artillery figures showed 73,058 sent home out of 212,846.

Restoration Of Injured Taken Up By Delegates

(By The Associated Press.)

NEW YORK, March 18.—Delegates from all the allied countries began comparison of methods of rehabilitating war victims at a four day international conference on rehabilitation of the disabled which opened here today under the auspices of the Red Cross. Out of the conference it is expected will be developed for each country new methods for the restoration to society of all the injured, comprising the best elements of the various methods now in use.

Plans for extension of the work to the hundreds of thousands of persons crippled every year in industry also are to be taken up.

Today's session was given over to short outlines of the rehabilitation plans of the various countries. The speakers including some of the most prominent exponents of the movement in the United States, France, Italy, England, Belgium and Canada.

Dr. Maurice Bourillon said that France is training the disabled to resume their pre-war trades but that where it is impossible they are being trained for new vocations according to their preferences and abilities. New laws, he said, give them pensions and five years preference in civil positions in the national government.

Belgium's work was described by Professor Lewis Allenman who said the Belgian work so far had been conducted by civilian organization but a bill providing for national rehabilitation of soldiers "will undoubtedly be passed soon."

Italy's Plans

Professor Vittorio Putti, a famous Italian surgeon described Italy's plan which includes fifteen days compulsory attendance by each convalescent soldier at a vocational training school. Preference for wounded soldiers in certain government positions also has been instituted in Italy.

England, said Mrs. Ethel Wood, secretary of the local War Pensions Committee of London is offering vocational training not only to the wounded but to soldiers who were minors when they enlisted, to university students whose courses were interrupted and to widows of slain soldiers.

America's program as built up from the experiences of the allied nations was outlined by Col. Frank Billings, chief, and Lieut. Col. Joseph L. Miller, assistant chief of the division of physical reconstruction in the surgeon general's office. Under the American plan, Colonel Billings said, no soldier will be discharged from the army until he has fully recovered physically and all who desire will be given full vocational training.

30,000 LEAVE FRENCH SHORES FOR AMERICA

(By The Associated Press.)

WASHINGTON, March 18.—Departure from France of approximately 30,000 officers and men of the American Expeditionary forces—the largest single homeward movement of troops since the cessation of hostilities—was announced today by the war department. The returning soldiers are board two cruisers, the Montana and the Pueblo, and fourteen transports.

Troops making up the movement include units of the 37th, 30th divisions, the 72d, coast artillery regiment and a large number of casualties.

The transports and cruisers are due to arrive at American ports between March 24 and April 2. A casual company for Illinois is aboard the George Washington due at New York March 22. The transport Santa Oliva, expected to arrive at New York March 24, brings casual companies from Michigan, Iowa and Illinois and a casual company is coming on the transport Pearl Shell due March 31.

CHICAGO BASEBALL STAR ON WAY HOME

CHICAGO, March 18.—Alexander has left station enroute to United States. This cablegram signed by General Pershing gave first definite assurance today that Grover Cleveland Alexander, premier pitcher of the National league was on his way home to join the Chicago Nationals. The message was received by Fred Mitchell, president of the club. Alexander has been in Germany with the army of occupation.

PARENTS CHARGED WITH GIRL'S DEATH

JAMESTOWN, N. D., March 18.—Following a three hour grueling trial, Dan McDowell, mother of Etta McDowell, 13 years old, whose death last Friday at Courtney, has been under investigation by Stutsman county authorities, confessed last night that kicks and blows from the father and punishment of the daughter afterward by herself resulted in the child's death.

General Pershing Alludes Work Of U. S. Women

(By The Associated Press.)

COBLENZ, Monday, March 17.—Praise for the part taken by American women in the war was expressed this morning by General J. Pershing, while inspecting five Third army evacuation hospitals here.

"Without doubt America could not have carried out her part in the conflict as she did if it had not been for the willingness and courage of the nurses and others who came to care for the sick and wounded in France and the loyal support of patriotic women at home," he said.

"Despite the fact that America was in the war only a comparatively short time her medical and hospital service was not exceeded by that of any foreign nation."

At each of the five hospitals he talked informally to nurses, doctors and orderlies, telling them of the important work still to be done in caring for the sick and injured. He talked to many of the wards of the hospitals where approximately 3,000 are patients. These hospitals were erected by the German government and used by the enemy during the war.

At one hospital, the commandant in chief visited a number of American soldiers who are neurotics. He found them engaged in work and in fashioning various souvenirs from old German shell cases. Others were sewing and doing odd bits of work, the plan of treatment being to keep the minds of the patients on anything rather than themselves.

BAKER DECLARES WAR COST 197 BILLION

(By The Associated Press.)

SAN FRANCISCO, Cal., March 18.—"The cost of the war in money alone was \$197,000,000,000 more than the total property value of all of North America," Secretary of War Newton D. Baker told a gathering at the Commercial club here today.

The deaths from wounds in battle numbered 7,300,000 and the total deaths in all the armies reached a grand total of 9,000,000, he said.

Referring to the proposed league of nations Secretary Baker said:

"Unless such an organization is formed under some name and under some constitution, anarchy bred by disease, hunger and despair would overwhelm the earth."

But for the signing of the armistice the secretary said, Germany's armies would have been surrounded and captured.

"Germany did not surrender because of industrial or political chaos at home but because she was militarily beaten. She was beaten by an army of young Americans."

BERLIN MUST RAISE PRICE OF BREAD

(By The Associated Press.)

BERLIN, Saturday, March 15.—The government is faced with a problem in fixing the price of bread to be made from imported foodstuffs the prices of which are much higher now than those Germany produced during the war. The price of bread now is 50 to 60 pfennigs for a two pound loaf and to increase it greatly it is believed would cause more discontent. The present price of bread is based upon maximum grain prices averaging 350 marks a ton for wheat and 330 marks for rye. The cost of American wheat will reach, according to officials of the food ministry 3,000 marks a ton. Under the present straitened conditions of German finances the ministry is utterly unable to carry the excess cost. The food ministry proposes to solve the problem by keeping the bread ration at the present amount and price. In making this bread the ministry will use such imported flour as is required to supplement the home stocks of rye. It will sell the balance of imported flour to housewives in the form of white flour at a price to cover the loss on flour used in the rationing bread. The problem regarding pork products is less difficult.

GERMAN ASSEMBLY TO CONVENE MARCH 25

(By The Associated Press.)

BERLIN, March 17.—Monday (By the Associated Press.)—The Vossische Zeitung says it learns that the nation assembly which has adjourned until March 25 will reconvene during the course of the present week if the peace negotiations are concluded by March 20.—The cabinet which now is in Berlin will return to Weimar at the end of the week.

The newspaper states that the plan to transfer the assembly to Berlin has been abandoned. The constituents will complete their labors by the end of May and then a resolution declaring for a constitutional convention.

The food commissioner announces that the nation's available home food stocks will be exhausted by the end of May and from this time he will be forced to depend upon entente supplies. The distribution will be confined at the start to the metropolitan centers which comprise populations of 47,000,000.

HEADS OF MANY ILLINOIS CITIES SEEK HOME RULE

Violent Attack Made Against Utilities Commission

(By The Associated Press.)

SPRINGFIELD, Ill., March 17.—Mayors, councilmen and city attorneys of approximately two hundred Illinois cities, including Chicago, crowded into the senate chamber late today to urge enactment of legislation giving municipalities the right to control utilities within their limits and to fix rates by ordinance. The senate hearing before the public utilities committee of the upper house followed a luncheon at which the city representatives went on record in favor of the Jewell bill in the senate and the Wanless bill in the house. Because no representatives of the public utilities commission were present to defend it against violent attacks, Senator John Dailey, chairman of the senate committee suggested that an opportunity be given the commission to answer. For this reason the hearing was continued until Wednesday of next week. Some of the reports of the commission are at variance with statements made here," Senator Dailey said. "The commission should be given a chance to explain."

Many Appeals Made

More than a dozen speakers appealed for "home rule" for cities over public utilities. Practically all cited grievances against the commission.

Mayor William McCone of Rock Island charged the state administration with responsibility for the alleged unfairness of the commission. "Governor Lowden has been flirting with the powers that be around Washington," he declared. "I want to say that if he don't settle that public utilities commission, which he won't have any more chance to be president of the United States than a dog catcher."

In stating the position of the "home rule" committee of the Illinois Municipal League, City Attorney Robert L. Watson of Alton said the present situation offered the first instance in which Chicago was united with downstate counties in a program.

"We are standing together," said Mr. Watson, "because a principle is involved. A city has the same right to bargain with a public utility company as an individual has to bargain with a contractor to abrogate a contract."

Alderman Ross Woodhull of Chicago, followed Mr. Watson and reported the vote of the council in favor of home rule over utilities.

Organized labor was represented by Duncan McDonald, president-elect of the Illinois Federation of Labor who said he would not be opposed to abolishment of the public utilities commission, and that he bespoke labor's wish that control over utilities be vested in cities.

Freeman Thompson of Springfield said the miners of Illinois wanted the "home rule" clause in the utilities act.

Other addresses in support of the Jewell-Wanless bills were made by George A. Schilling of the Chicago Public Owners League; City Attorney George A. Cleary; City Attorney Scott of Chicago; Alderman Perry Ellis of Quincy; City Attorney Bakke of Shelbyville; Mayor Ball of Morris; Mayor Trevor of Moline; Mayor Hoff of Paris; Commissioner Hanna of Forest Park and Commissioner W. J. Spaulding of Springfield.

Free Zone Bill

While the Municipal League delegates came primarily to attend the public utilities committee hearing they pledged their support to the zoning bill of Senator Glacklin and the bill of Senator Barr pertaining to cities to levy a two per cent for general purposes without a referendum vote.

The Glacklin zoning bill, intended to permit city councils to restrict manufacturing and mercantile establishments to non-residential districts was reported favorably by the senate municipal committee during the public hearing in the senate and the announced result was greeted with applause.

Election contests of Judge John L. Cooper in the 19th and 32nd districts for house seats were dismissed by the house elections committee on motion of the petitioner. The committee granted James M. Kittleman, Republican, of the 19th district twenty days in which to file an amended petition of contest against Solomon R. Roderick, ruling that the original petition was not specific. A continuance until April 2nd was allowed in the case of Thomas P. Devereux, Republican, against Frederick J. Bippus, Republican.

Scott McBride, superintendent of the Illinois Anti-Saloon League announced tonight that a bill would be ready for presentation next week providing for the appointment by the governor of a prohibition commissioner to administer the law enforcement measure of the league now pending in the legislature. The salary of the commissioner probably will be \$5,000. He will have four deputy commissioners and twenty-five inspectors.

Glass Approves Forms For War Risk Insurance

(By The Associated Press.)

WASHINGTON, March 18.—Secretary Glass today approved regulations governing conversion of soldiers and sailors war time insurance to standard forms of government life insurance. The policies will be ready for issuance soon. The forms of policies which may be obtained at option in exchange for term insurance of war time, are:

Ordinary life, twenty payment life, thirty payment life, twenty year endowment, thirty year endowment, and endowment payable at the age of 62.

The premium rates for these converted policies are lower than those charged by private insurance companies," said the announcement. "In previous announcement it was said the rate would be 30 per cent lower."

"The policies contain exceedingly liberal privileges," continued the announcement, "providing for cash and loan values, paid up and extended insurance and further providing that the insured will be paid for life a monthly income in the event that he becomes totally and permanently disabled. All of these policies are incontestable from the date issued and are free from restrictions as to residence, travel or occupation. The holders of the policies will be eligible to share in and receive dividends from gains and savings and the proceeds of the policies are exempt from all taxation."

Premiums on the new forms of government life insurance are payable monthly but may be paid annually, semi-annually or quarterly. The monthly premiums due the first of each month may be paid at any time during the month.

"An opinion by Attorney General Palmer that insurance might be paid to the estates of deceased persons today removed the last obstacle to issuance of the new policies."

PERSHING REVIEWS THIRD DIVISION

(By The Associated Press.)

COBLENZ, March 17, Monday.—The men of the Third division of the American army who fought against the Germans in the Marne drive were inspected, reviewed and presented with decorations by General John Pershing this afternoon. The review was held in the great aviation field near Andernach, on the west bank of the Rhine.

The reviewing stand was in the center of the field, the entire division sweeping by on both sides of the reviewing stand. The 12th aero squadron took photographs of the troops during the inspection, returned to Coblenz a distance of more than seven miles, developed the plates, returned and dropped twenty photographs for Generals Pershing, Dickman and Howse all in fifty minutes.

At the battle of the Marne General Pershing commanded the Third division and he occupied a place by General Pershing's side today as the troops marched past the reviewing stand. The 12th aero squadron took photographs of the troops during the inspection, returned to Coblenz a distance of more than seven miles, developed the plates, returned and dropped twenty photographs for Generals Pershing, Dickman and Howse all in fifty minutes.

PROTEST AGAINST GEN. BLATCHFORD'S ACTION

ANNA, March 18.—The American canal employees are circulating a petition to be presented to the secretary of war, protesting against certain statements made by General Richard M. Blatchford, commander of the United States forces in the canal zone, reflecting on normal conditions in the zone. Forerunner of Representative Daniel J. Griffin of New York who was with the congressional party visiting Panama, protested against General Blatchford's forbidding the holding of a meeting of Irish and Irish sympathizers on St. Patrick's day for the purpose of formulating a request that the league of nations include Ireland as a free nation.

POLICE BREAK UP PARADE OF STRIKERS

LAWRENCE, Mass., March 18.—Encounters between policemen and textile strikers and strike sympathizers, which started today when the police broke up a parade were resumed tonight.

Shots were fired at policemen from tenement houses while they were struggling with leaders of the parade and tonight the police exchanged shots with occupants of a house who made an effort to prevent them from making an arrest. Twenty men were arrested during the early rioting were held under \$500 bonds each or charges of inciting to riot.

Four men were arrested tonight. The police used their clubs freely today after the strikers had thrown stones and bottles.

MEXICO MUST PROTECT LIVES OF U. S. CITIZENS

Is State Department's Warning to Mexican Government

(By The Associated Press.)

WASHINGTON, March 18.—The American embassy at Mexico City was instructed today by the state department to request the Mexican government to take every possible step to insure the protection of American citizens in the territory in northern Mexico where Villista bands again have become active. The Mexican authorities also will be asked to effect the release of James E. Whetten, an American, who was Bishop Joseph Bentley of the Mormon church was captured by Villista forces near Las Cruces, Chihuahua some days ago.

Information that Whetten was in the hands of the bandits reached the department only a short time before a telegram was received from Representative Edward Hamilton of Michigan who said he had been informed by Warren & Co., that employees of the company's ranch at Ojitos, Chihuahua were held by Martin Lopez, a Villa leader, who demanded \$5,000 ransom, under threat of killing the prisoners and destroying the ranch.

Information now in the hands of the state department shows that the bandits have been active for at least 12 days and that their operations cover a comparatively wide range of territory. The town of Pearson, in northern Chihuahua, was raided by Pope and Ramon Vega on March 6, some time before the bandits descended upon Las Cruces and took Whetten and Bentley. Representative Hamilton said Lopez has captured the towns of Janoria. ABOUT OBJECTIONS.

Objections may be filed because of technical irregularity in the preparations for the recent primary election. Furthermore, this matter of objection might prove a two-edged sword. At any rate, it is safe to say that the will of the people will in some way be properly and decisively recorded when the regular election is held April 15. The will of the majority cannot be done away with by the technicalities.

FIGHTING THOMPSON BY CABLE.

At any rate Mayor Thompson has the distinction of being the first Chicago mayoralty candidate who has had campaign material against him cabled from Europe.

Schram & Buhrman

We Make a Specialty of Perfect Diamonds.

The Chicago Tribune is now printing a series of articles from Capt. Carter Harrison, formerly mayor of Chicago, in which the captain gives reasons why he thinks Chicago is entitled to a mayor of larger calibre than the present incumbent. His attacks are mainly against Mayor Thompson's record on patriotism and the charge that "Thompson never would work" and that he has accomplished nothing in a constructive way in the past four years. There is a lot of well founded criticism of the Thompson administration but there is no denying the mayor's strength and prospects are fine for his election to succeed himself.

NATIONAL INTEREST IN THIS DEBATE.

That will be a notable debate tonight in Boston, when Senator Henry Cabot Lodge and President Lowell of Harvard university will be pitted against each other to discuss the "Covenant of the League of Nations." Both men are so finely equipped mentally and so widely known that their utterances will have national importance. Senator Lodge is opposed to the league covenant as Mr. Wilson has outlined it, but believes firmly in the underlying principles. Perhaps the present situation will develop debates which will rival the historic contests between Lincoln and Douglas on the question of slavery.

KEEPING EYES ON GERMANY.

There is no denying that in discussing just how Germany shall be handled that America looks upon the question with more leniency than applies to the allied peoples overseas. It is not surprising that the problem looks very different thru French eyes, especially in view of what Germany has done to France in times past. Recently a book written by a prominent Frenchman has come to light in which a detailed plan was given of the manner in which Germany was expected to oversee the industrial life of France and England and eventually the U. S. A study of this book is what caused the author of the Bache business review to say recently:

"In view of what the Germans would have done to a conquered world, would it not be fair for a conquering world, through the peace terms, to impose upon Germany industries some such system of allied overseeing superintendence and resident agents for information purposes, attached to every German industry, as are outlined in the Herzog book, and as would have been placed in charge all over the world by Germany if she had won?"

"Undoubtedly, control of Germany must continue for many years, until (and it would be perfectly proper) she has paid up her indemnities to the last cent. This would be simply following out Germany's own course of procedure in 1871, when she insisted upon keeping her troops on French soil until the (at the time) enormous assessment which she made upon France, was paid. Then, Germany retained control only to humiliate France, whom she had unjustly attacked and robbed.

"Under the allies' terms, however, the industrial control would continue as against a criminal, dangerous to the world and safe only under confinement. Such control, with the army disbanded, would have to be exercised by some alliance of great nations, whether the league of nations or a simplified and amended form of it."

THE NEED OF CLOTHES.

Food and Clothes! Just the bare necessities for keeping the flame of life burning in the human body. That is the appeal of more than one million people in Northern France, Belgium, Serbia, Roumania, Montenegro, Palestine, Czechoslovakia, Poland, Albania, Italy and Greece.

Of food they have little, but by their own efforts and the help of various relief agencies they have so far been able to obtain sufficient nourishment to sustain life. But of clothes they have practically none. The head of the family wears a cast-off soldier's tunic, a pair of trousers patched in half a dozen places with plain burlap, the mother's costume consists of trousers in many instances, or a skirt made from pieces of cast-off garments, and in nine cases out of ten, a man's shirt.

And so the American Red Cross is conducting an Old Clothes campaign. From now until March 30, the cast-off garments of America will be gathered up and sent direct to the suffering countries overseas.

It is not only dresses and suits that are needed. Leather shoes are very scarce and underclothes a luxury. The children go about garbed in a heterogeneous collection of cloth that could not be traced with the name of clothes.

Socks and stockings are articles that have become practically unknown as a clothing necessity in these regions.

Men, women and children of all ages raise their voices in the cry. They are refugees—the people who are unfortunate enough to have settled in the regions of Europe which were over run by the invading army of the Germans. They were no more to blame for their misfortunes than the comfortable citizens of Kansas or Pennsylvania. Yet they have suffered untold miseries in this world upheaval.

When they were driven from their homes before the oncoming German hordes they took with them only the clothes they had on their backs. In returning to their homes many wear these same clothes, worn by more and even years of weary wandering. With the armistice their thoughts and ambitions have turned toward the places they once knew as home. They have followed the irresistible call of their hearts and have come back. They find nothing but desolation and ruin.

All over the immense waste of territory known as the devastated and liberated areas, they can be found today living in dugouts that served as small shelters for the contending armies, in rudely constructed shacks, and dark cellars.

Their need is tragic. What's to be done? The people of America, laborers, mechanics, professional men, all, have a good answer. Suits, coats, shirts, underwear, socks, shoes, that the individual has decided to discard will give much better service on the shivering and exposed backs of the unfortunate million of Europe than as dust cloths or in the family rag bag.

Rippling Rhymes By Walt Mason

After the War.

When Kaiser Bill's embattled Huns were doing stunts with sword and guns, you were a dead game sport, we know, who breathed defiance to the foe. No sacrifice was then too great, you wished to squelch that Wilhelm skate, and everything for which he stood, and you were busy sawing wood. You sold the cow, your car you pawned, so you could buy another bond. With loyal boys you held the fort; you were, in truth, a dead game sport. And now the silly war is done; we've placed the kibosh on the Hun, have gained for man a brighter day—but there are many bills to pay. In war-time you were great, my friend; don't be a piker at the end. Our Uncle Sam, he needs a pile, and has to borrow for a while. He needs full many a shining bone, and so he springs another loan, and we should rise on our hind legs, and offer him the dough in kegs. Are we less loyal than we were when we were lifting Teuton fur? I wot not, and I wist nay; we'll help our Uncle Sam to pay. He needs all kinds of large round plunks; we'll dig the doubloons from our trunks. And you will help us out, my friend. Don't be a piker at the end.

IS RED CROSS

NURSE IN FRANCE

The many Jacksonville friends of Miss Pearl Davis will be glad to hear that she is well pleased with her work as a Red Cross nurse in France, where she has been for the past several months. She spent a number of months at Brest and has also been in several English cities. Miss Davis has written friends here that she is expecting to have a month's furlough in the near future and expects to spend it in Italy. She has no idea when she will be released from the government service but does not expect to return to the United States very soon, for it is probable that she may be sent into Russia for a period before returning to this country.

Mrs. Martha Wilson of Camp Point, has returned after a visit of two months at the home of her nephew, S. P. Carter.

SENIORS WIN CHAMPIONSHIP

The Senior basketball team finished the Interclass Tournament

in great style yesterday afternoon when they trounced the fast

Junior five by a score of 25 to 13. The Juniors, who defeated Chapin

last week, put up a great fight but had no chance against

the team which has won the Interclass Tournament for four

successive years. The members of the Senior team have played

together for four years and their team work was the fastest ever

witnessed in any Interclass Tournament held at Illinois College.

Wallace and Swain were a great scoring combination, being able

to find the basket from any position on the floor. Smith was a

demon on breaking up plays. The small score of the Juniors shows

the splendid guarding of "Cap." Underwood, Lukeman and "Quincy"

Taylor. You can't beat the cat of 19 in anything!

FUNERAL OF MRS. WATERS

The funeral of the late Mrs. Mary Ruyle Waters was conducted

in the Baptist church at Athensville by Rev. William R. Johnson

of Winchester. Beautiful and appropriate music was furnished

by the church choir, Mrs. Lulu Wood, Harry Wood, Mrs. Thomas

Rimby, Ellis and Elbert Walkington, Clara Mayberry, Lillian

Armstrong, Mrs. Ellis Walkington accompanying. "We are Going Down the Valley One by One" was the first selection.

Mr. Johnson then read the 23rd psalm and part of the 14th chapter of John and offered a fervent prayer.

Mrs. Eva M. Harr then sang a solo, "Face to Face," after which the pastor read the following account of Mrs. Waters's life:

ville. All her near relatives attended the funeral except Lucian and Mrs. Elzina Fitzsimmons.

The stand was decked with potted plants, roses, lilies and choice sprays of flowers.

Mr. Johnson took for his text II Cor. 5:1: "For we know that if our earthly house of this tabernacle is dissolved, we have a building of God, a house not made with hands, eternal in the heavens."

The discourse contained a fitting tribute to the memory of a true Christian and one who was ever faithful to duty and obligation.

She was one whom her children will rise up and call blessed and her example will be followed by many in years to come.

At the close of the discourse a solo, "Will the Circle be Unbroken Bye and Bye?" was sung by Mrs. S. M. Harr with Miss Ruth Whitlock accompanying.

The choir also sang, "We'll Never Say Goodbye in Heaven," and "Jesus, Savior, Pilot Me."

The remains were then borne to the cemetery east of town by Messrs. Wilson Whitlock, Claude Nash, Douglas King, William Griffith, Cleve Prather and Bird Ruyle.

The many beautiful flowers were cared for by Mrs. Ollie Hall, Miss Otie Crowder, a niece, Mrs. Nellie K. Jackson and Miss Lucy Maberry.

MISSION STUDY CIRCLE MET TUESDAY

The Mission Study Circle of Congregational church met with

Miss Marian Fairbank, 121 Westminster street Tuesday evening with an attendance of about

twenty members. The Circle took up the study of the new book, "The Gospel for a Working

World." C. H. Smith had the paper reviewing the first part of the book. The paper revealed

much thought in preparation and was followed by an animated discussion by the members.

MINERS SEEK MORE PAY AND LESSER HOURS

INDIANAPOLIS, Ind., March 18.—The policy committee of the United Mine Workers of America today adopted three fundamental principles around which will be based the miners' demand to be presented to the operators at a conference immediately following the signing of peace.

A six hour work day, five days a week.

A substantial increase on all existing tonnage, day work, yardage, dead work prices and government ownership of mines.

International President Hayes said the press and public has sometimes misunderstood the attitude of miners and the labor movement and declared that the miners have no desire to attain Bolshevism and that they are not Bolsheviks.

The recommendation for a shorter work day and five days a week was offered in an effort to solve the unemployment problem.

WITH THE SICK

Thomas Stevenson was in the business district yesterday the first time for a number of weeks. Mr. Stevenson was seriously ill at Passavant hospital during a part of that period but is now well on the way to recovery.

Mrs. Sallie Miller who has been ill for several days at her home on Westminster street, is now much improved.

City Clerk R. L. Pyatt who has been ill for the past week, was slightly improved yesterday. Mr. Pyatt is ill with the flu, in a condition bordering closely on pneumonia. As he had a severe attack of pneumonia a few years ago the fact makes his family and

friends the more apprehensive. G. L. Riggs, county clerk, remains ill with the flu at his home on South Clay avenue, but is improving. Other members of the family have been ill for the past ten days.

SOME DAY

Our city, called by many folks, "The Athens of the West," will some day take her place beside the very best.

That day will come when you and I, and the rest, quit pulling back, and put our shoulders to the wheel, and boost her up the track.

We're going to have a mayor that we know has got the push, and to show us that his heart is right, he will serve without the cash.

In days gone by a few have pushed until their feet would slip, but the rest of us have stood around, like chickens with the pip.

When the next big push gets under way, Oh, wouldn't it be grand, if all the able-bodied folks would push, and the rest would throw on sand? (not mud, you Gazoos, sand.) Do you get me?

Say, writing that kind of dope is easy. It only took me three hours to think that up. I sure would hate to be a newspaperman.

Selling auto tires, etc., is more in my line. Need any? We have repair parts for Fords.

Yours truly, JACK.

RGE H. WILSON Quincy, Ill.

Republican Candidate for Justice of the Supreme Court

RECORD SPEAKS FOR ITSELF
State's Attorney of Quincy, 1896-1900. Correlation counsel of Quincy, a Democratic lawyer, 1907-8.

Four times elected to Illinois General Assembly. Acknowledged leader in constructive legislation. A lawyer twenty-eight years' experience. "As a man a citizen his record lawless."

ATTORNEY GENERAL BRUNDAGE SAYS:
I know him to be of excellent temperament, energetic, and well grounded in law. His twenty-eight years of active practice, his experience and his character fit him for the position he has and will give him my full support."

FROM EDITORIAL, QUINCY WHIG:
Mr. Wilson in his public life has been broad, comprehensive, and useful and valuable member of that important court. His knowledge of law covers the entire field of jurisprudence, and by actual experience.

She furnished society news for the Whig until she was induced to take hold of the Optic, a weekly that had been started some time previously. The owner represented to her that the property was valuable, and a money-maker and she invested with cash she had in the project. The man pocketed the \$600 or \$700 that was paid for the property and left for California. Mrs. Robbins, then Mrs. Julia Pratt, found herself in possession of nothing more tangible than a table and chair in a rented office and no subscription list to speak of and nothing coming in. It was a discouraging outlook and, when she explained it to friends, Mrs. Pratt was advised to drop the project and take up something more promising of results. Mrs. Pratt thought otherwise and acted otherwise. She determined to make a success of her paper and worked at it early and late and lived to see her ambition realized. It was hard work, but a few days before Christmas, when a Herald reporter called on invitation on her at her home on South Twelfth street, she told of her early experience in reporting society events, a change of collar or a bit of new ribbon the extent of her change of costume, and an occasional indulgence in a pair of new gloves. She wrote well—there has not been in Quincy a writer whose composition was more neatly perfect than hers—and the time came when, no matter what the daily papers had to say of prominent society events the appearance of the Optic was awaited as the official chronicler.

Wrote Entertainingly
"Mrs. Pratt had the happy faculty of writing entertainingly of the happenings in the social life of Quincy without gushing over them or their participants and was never known to be guilty of a breach of confidence. She abhorred and ignored scandal and her pen was never clean of anything approaching the salacious.

"Mrs. Robbins earned her first money as a writer by telling the story of a recitation by a little girl at a Sunday school entertainment, an incident that came under her observation. Mrs. Pratt wrote the little story and sent it to Harper's Bazar and was the most surprised woman in the city the day a few weeks later when she received a letter from the editor of the paper enclosing a check for \$10 and requesting her to send in more stories, as many of them and as frequently as she desired. It was this encouragement that in a large measure caused Mrs. Pratt to decide on a literary career.

"Years afterwards when announcement of her marriage to Dr. Robbins was made, she received a second surprise in the form of a particularly fine write-up of the event in one of the leading ladies' journals of the country. In this notice there was paid Mrs. Robbins the compliment of editing and publishing the paper that, in the opinion of the editor, was the model of what a weekly society paper should be and the purity of the composition of which was unexcelled by that of any paper that came to his desk.

"Mrs. Julia Pratt became Mrs. Joseph Robbins more than twenty years ago and a friendship that

had existed for years became intensified into a love that continued to the end. Dr. Robbins died nine years ago last summer and since then the widow had calmly and patiently waited for the time to arrive to lay down her own burdens and enter into rest. Until the last she retained her fine qualities of mind and heart. Loyal in her friendships and of genial disposition she was the center of an admiring literary and artistic group of the generation before the present, and her demise is mourned in what remains of that circle. She was a valued member of Atlantia and of the Woman's Forum.

"Mrs. Robbins at her own request was taken to Blessing hospital several weeks ago. She had suffered an attack of influenza and been confined to her room, most of the time to her bed."

Some Family History
Dr. Jones, a native of New York city, came here in 1831, and lived until 1884. He was one of the best educated men, in letters and in medicine, that the "Athens of the West" has had. His wife had more than the usual education then accorded to women. Their children were exceptionally bright and well educated. Their daughter Julia was graduated from the Academy in 1860, and possessed a voice of fine quality. For a number of years she sang in the choir of Westminster church.

Mrs. Robbins' education and ability made for her an exceptional place among the women of the state, as is shown by the Quincy notice. She came back to Jacksonville for a short time, about 1901, and then returned to Quincy. Mrs. Robbins' only relative in this county now is Mrs. Katie Luttrell of Franklin. A brother, now deceased, was William W. Jones, who was a writer of note and was at the time of his death in 1867 connected with the State Journal.

None of our earlier settlers were there who did not know of Doctor Jones. He had a wonderful faculty of pleasing his patrons. In passing it is to be remembered that most of the early day doctors were lamentably deficient in general and in professional education.

And Julia Jones is gone! As she looked across the river she saw the light as she had never seen it before, and she "went west."

Jacksonville Electric Railway Suits \$8,000 from Road Contractor.

(From State Journal.)
Arguments in the \$8,000 suit of the Springfield & Jacksonville Electric Railway company against J. H. McFarlin, and the Hymen-Michael company began in the circuit court yesterday. Attorneys for the plaintiff state that McFarlin, who is a contractor for the building of railroads and the like, sold iron rails valued at \$8,000 to the Hymen-Michael company, and that they were the property of the railway company.

That the Jacksonville Electric Railway company owed the defendant more than \$49,000 at the end of the year 1919, and that he never collected a dollar, was the statement of the attorney defending Mr. McFarlin. He stated that McFarlin sold the rails in order to get money, which was justly due him, and that the railway company abandoned the property west of Springfield, where one and one-half miles of track was laid under the supervision of the defendant, who had taken the contract. It was also stated that the right-of-way of the proposed railway has now been enclosed by the land owners, and that the only possible way for the defendant to be reimbursed is to sell the rails.

MAKE GENEROUS OFFER
The Jacksonville Daily Express in a recent issue makes announcement of the fact that free treatment and hospital care will be given at the A. S. O. hospital to all returning men from the army or navy in the next two years. The offer says: "Any returning foreign service soldier or sailor anywhere in the country during the next year can get free surgical, orthopedic or osteopathic treatment. In case they will have to be in the hospital, will have to pay for board and room. Even this expense will be free to members of Co. C who went out from Adair or adjoining counties." The offer holds good also for students and graduates of the school.

We are showing spring millinery of style and quality in all the most wanted colors. The Carroll Millinery Parlors, 859 Routt St.

MAY MAKE OBJECTIONS TO ELECTION RESULTS

A NUMBER OF CANDIDATES
FILED DAY LATE.

If Proceedings are Begun Independent Ticket Will Result—Some Possibilities Outlined.

There have been various rumors current ever since the election held March 11 that soon after the vote was canvassed that objections would be filed to the names of a number of candidates declared the nominees in the official canvass. The report gained still further currency yesterday and W. N. Haigrove, who was reported to be the attorney with whom the possible objections had been in consultation, was asked about the matter.

Mr. Haigrove communicated the fact that objections have been under consideration and several parties had consulted him about the necessary procedure. It seems to be a fact that the last day for filing was erroneously announced and that it should have been Feb. 19 instead of Feb. 20. Under this condition a voter is said to have the legal right to file objections directed against any candidate who filed on Feb. 20 and who was later declared by the canvassing board as the nominee for the position the candidate was seeking.

The Procedure.
Under this section of the election law the canvassing board could then pass upon the objections and if the objections were approved the name of the candidate objected to would not appear on the party ballot in the election. If the objections were overruled then the petitioners' recourse would be, according to Mr. Haigrove, to bring quo warranto proceedings against the canvassing board. This would throw the matter into the circuit court, with some uncertainty as to what would then eventually happen.

An examination of the records at the city hall shows that petitions were filed by the following candidates on Feb. 20, which it is now claimed was too late to allow them party place on the ballot:

For Mayor:
W. L. Alexander (R), E. E. Crabtree (R), Charles R. Knoltenberg (D).

For Clerk:
R. J. Pyatt (D).

For Aldermen:
First ward—A. L. Wood (D), E. A. Brennan (D), Thomas Flynn (D), J. W. Baptist (R), H. C. White (R).

Second Ward—A. E. Williamson (R), George P. Brown (R), H. E. Frye (D).

Third Ward—John D. Cain (R), Alexander Platt (D).

Fourth Ward—T. A. Chapin (R), C. F. Ehrie (R), J. M. Hurst (D).

The petition of John A. Bellatti as city attorney was filed Feb. 19 so that his candidacy cannot be affected by the suggested petition. In the list of names mentioned above only those who were declared the nominees by the canvass are affected. If objections are filed they must be specifically directed against some one or more candidates. It is reasonable to suppose that if such objections are filed that the friends and supporters of these candidates will file like objections to other candidates.

The Aldermanic Situation.
It can easily be figured out then that this objection process that there would be no candidates for mayor either on the Republican or Democratic tickets. Continuing the objection plan with reference to aldermen, might lead to the situation of having no Republican aldermanic candidates in the first ward and with objections filed against Mr. Flynn the next highest name in this case Mr. Blasse, would become the nominee. In the second ward A. E. Williamson would be out and Howard Wannamaker, with the next highest vote, take his place on the Republican ticket. H. E. Frye as the Democratic candidate would also be eliminated. James Stout with a credit of two votes would be the running mate for Ray Vasey who received fourteen votes.

In the third ward John D. Cain would be out and E. E. Wells, holding the next highest vote, would become the Republican nominee along with George A. Moore. In that ward Alexander

Platt, Democratic candidate, also could be forced out.

In the Fourth ward T. A. Chapin and C. F. Ehrie could both be put "out of business" on the Republican ticket and the one remaining nominee would be Dr. R. H. Beverly, unless the official canvass shows the name of some Republican having received one or more votes. J. M. Hurst, the sole Democratic candidate from that ward, was also one who filed on Feb. 20 and his candidacy could also be objected to. In that instance Judge Brockhouse and J. W. Hubble, might become the party nominees as they each received one vote in the primary.

Altogether it is easy to see what a fine mix up this objection method might bring to pass. It is only reasonable to suppose that if candidates who filed in good faith on Feb. 20 and received a majority vote at the primary election were thus taken off their party tickets by the technical error, that independent tickets would flourish and the election proper would in all probability show the will of the people recorded in the very same way that it was given in the primary election.

Y. M. C. A. MEMBERSHIP FOR SOLDIERS

A number of free memberships, good all the year thru, in the Y. M. C. A. are available for returned soldiers. This is possible thru the special contributions secured from a number of citizens. A special committee of which H. M. Capps was the chairman, was organized to forward this movement and thus far liberal support has been given the plan. However, it is the desire of the association to provide for the full payment and thus far liberal support contributions to the fund are still desired.

The directors of the Y. M. C. A. have assured the committee that if a full 100 subscriptions of \$10 each are secured, that every returned soldier will have the right to all the facilities of the Y. M. C. A. for a period of a year. This of course does not mean that there are only 100 soldiers but the regular funds will take care of the expense beyond the point provided by the special 100 memberships purchased by the contributors.

AGED WHITE HALL RESIDENT DIES

Mrs. L. V. Dayton Passed Away at Home of Daughter, Mrs. E. A. Piper—A. E. Vosseler Hears from Son in France—Other Greene County News.

White Hall, March 18.—Mrs. L. V. Dayton died at the home of her daughter, Mrs. E. A. Piper, on south Carr street, at 4:40 a. m., Monday, aged 75 years, 7 months and 20 days. Her dangerous illness was previously mentioned in these columns. Funeral services will be held at the Piper home at 2 o'clock Wednesday, conducted by Rev. E. C. Lucas, pastor of the Christian church and interment will be in the White Hall cemetery.

David Lille an old time resident of White Hall, is dangerously ill at his home in the south part of town.

J. D. Littleton was 68 years of age Monday.

J. R. Postlewait, a C. and A., dispatcher, was down from Roodhouse Tuesday, and dined with R. B. Pearce.

Alderman Frank Campbell and George Staples represented the city council at the municipal banquet in the Leland hotel at Springfield Tuesday. Mayor Beehm was detained at home by business that came up at the last moment.

Dr. C. D. Vosseler Heard From.
A card received by A. E. Vosseler was the first word since September 29 from his son, Dr. C. D. Vosseler, who at that time was in a base hospital for foot treatment. After leaving the hospital he was with a casual company without an address, and every effort to get word to him or about him was unavailing. The war department, the Red Cross and Y. M. C. A., were appealed to without the least trace of his whereabouts until receipt of the card direct from him Monday. He stated that he was on his way to some camp for discharge, and would write fully from camp.

A son was born Sunday to Mr. and Mrs. Phil Powell at the home of her parents, Mr. and Mrs. J. Wes Talley.

It is now given out that C. W. Barton, representative of Simmons Hardware Co., is out of danger. A trained nurse was assigned to the case last week, when it was thought he could not recover.

C. B. Stahl, T. M. English and H. W. Galt departed Monday for Ohio on the invitation of eastern potters to visit their plants and survey clay methods. They will also attend a convention of clay manufacturers while in Ohio.

Advices from Jacksonville are that Mrs. J. Wes Talley is making splendid progress toward recovery at the Norbury sanitarium.

The C. and A. has been compelled to go to Michigan for an ice supply for the immense icing station at Roodhouse, only a small quantity having been obtainable on their line in account of the exceedingly mild winter.

The Michigan product began arriving this week, and Frank Sawyer came down from Roodhouse Monday and secured a gang of thirty men to assist in unloading it. Day and night shifts will be employed until the houses are filled.

C. E. Mabb, who resided at Sullivan, Mo., after leaving White Hall nearly twelve years ago, has been residing at Winchester during the past winter, and has arranged to move to the Hamilton farm at West Roodhouse, where he says he will be convenient to his home I. O. O. F. lodge henceforth.

A sub-district group meeting of the Women's Foreign Missionary Society of the M. E. church was held Monday in the local church, which was presided over by the president, Mrs. H. A. Perrin, of Jacksonville. Miss Helen Hewitt, returned missionary from Mexico, was a speaker. Mrs. E. C. Pearce gave a vocal number with Mrs. R. A. Pritchett, accompanist. Lunch was served at the church. A number were present from out of town to contribute to the splendid sessions, including Mrs. Dawson of Jacksonville, and Mrs. Walter Mitchell of Waverly.

C. A. Pritchett writes that he is comfortably located at Jacksonville, Florida.

SUBLETT A FORMER RESIDENT

A. H. Sublett, who was the victim of a holdup near the Wabash depot late Monday night, was a former Morgan county resident. He has been away for a number of years but met a number of old friends yesterday. Mr. Sublett went away from Jacksonville in 1898 with old Co. I for the Spanish-American war. During the past year he worked in a government ship yard in the south.

JOHN CORRINGTON IS COMING HOME

John W. Corrington will reach New York today, according to a message received yesterday by his father, Clifton Corrington. It was a wireless message sent via New York. The soldier has been overseas for nearly a year, a member of aviation Co. No. 147. He first went from Jacksonville to Jefferson Barracks and then was sent to San Antonio and after a few weeks' training went overseas. According to the message he is returning home in fine health and spirits.

WEDNESDAY CLASS

The Wednesday Class will meet with Mrs. Felix E. Farrell at her home on West College avenue this afternoon.

ASSESSMENT NOTICE.

All special assessments that are unpaid April 1st will be turned over to sheriff for collection.

RADIO SCHOOL HAS CLOSED ITS AFFAIRS

Local School Closes as Work for Government is Completed—Memorial Will be Placed in Library for Members in Service.

A meeting of the board of directors of the Morgan County Radio School was held yesterday afternoon at the Ayers Bank building. The purpose of the meeting was to close up the affairs of the school, which is no longer needed in war work. President Rammelkamp presided and reports of the various officers were received.

Chief Instructor Wackerle reported that all apparatus of the school had been returned to the government and all furniture and fixtures loaned the school by local people had been returned to the owners.

It was decided to turn over all records of the school to the Morgan County Historical Society and J. J. Kelly was appointed to assist in the accumulation of records of returning soldiers who were members of the school.

Dr. Rammelkamp, Superintendent H. A. Perrin and J. S. Findlay were appointed a committee to have a suitable memorial made containing the names of soldiers who were members of the school. The memorial will be placed in the public library.

The school had a balance in its treasury and this will be returned to the council of defense.

Jacksonville Chapter.
No. 3, R. A. M., will hold a special convocation this afternoon at 3 o'clock. Supper at 6 o'clock. Work. Visiting companions welcome.

C. C. PACKARD DIED TUESDAY EVENING

Well Known Resident Passes Away—Was Veteran of Civil War.

Charles Chaney Packard, a well known resident of the city, died at his home, 1017 North Fayette street at 10:10 o'clock Tuesday evening after an illness of ten days.

Deceased was the son of Charles and Eliza Packard and was born near Lynnville June 3, 1843. His early life was spent there and he enlisted in the Union army during the civil war.

He was united in marriage 22 years ago to Miss Emma H. Olroyd who survives him, together with one daughter, Mabel, and one son, Ray, both residents of Jacksonville. He also leaves one sister, Mrs. Giles Reeder of Winchester and one brother, T. J. Packard of this city.

During his early life Mr. Packard followed the occupation of farming. He removed to this city some years ago and in recent years has not been actively engaged in business.

Mr. Packard was a man of genial disposition. He easily made friends and held them and was held in high esteem by a large number of friends.

The funeral probably will be held Thursday, but the hour has not been set.

COMPANY C HAS A NEW CAPTAIN

Wesley James In Command of Local Military Company—Appointment Made By Colonel of Regiment.

Announcement has just been made of the appointment of Wesley James as captain of Co. C, of the Illinois Reserve Militia. Capt. James' appointment, according to present regulations is from the colonel of the regiment and was made to fill the vacancy caused by the resignation of Capt. C. E. Vickery.

Capt. James has been so untiring in his work in connection with the company, and is so thoroughly experienced in military affairs that his appointment was appropriate and to be expected. In the former militia organization he manifested his enthusiasm and ability and when Co. C was organized those especially interested in the organization felt fortunate in securing his services as first lieutenant. Several plans will be pushed by Capt. James for increasing the efficiency of the local company and maintaining the interest of the men. Indoor ball teams have been organized to play games following the regular drills and when warmer weather comes there will be baseball.

Just now Capt. James is seeking for twelve new men for the company in order to bring the organization up to regulation strength.

FIRST TRANSFER MADE FOR WATER PROJECT

The first deed was placed on record yesterday for the transfer of land to be used in connection with the proposed reservoir. Joseph A. Clark transferred an eighty acre tract to the trustee for the sum of \$20,000. This is a farm of eighty acres fronting on the Vandalia road and Clark was paid \$250 an acre in accordance with the option he gave on the property a number of months ago to Mayor Rodgers and Dr. Harker, acting for the joint committee on water supply.

The survey will be made this week in preparation for a number of other deeds and these properties will soon be transferred to the trustee and be under the control of the committee representing the subscribers to the water supply fund.

James H. White was here from Chicago yesterday to visit his sister, Miss Laura White, who is a patient at Our Savior's hospital.

Miss Harriet Andre has returned from St. Louis, where she spent several days visiting Miss Emma Doying.

PATRICK MURPHY

EDWARD O'BRIEN AT HOME.

A stalwart young soldier was greeting his friends in the city yesterday. He was Edward O'Brien, residing at 705 East Lafayette avenue, and recently at home from overseas. He went into the service in May last serving at Camp Shelby, Miss., and other places and Oct. 5th sailed for overseas arriving at Liverpool and going thence to Southampton and then to Havre. He was with the 139th Machine Gun Division and was ready for business but failed to reach the front in time to engage the Huns which he deeply regrets. He is looking fine and is glad to be home.

FINE FRUIT

Many years ago there was a shoe firm called Marcy & Hopper and eventually it was dissolved as Mr. Marcy felt obliged to seek the climate of California for the benefit of his health. He became interested in fruit growing and attained fine success and each year sends his former partner a box of delicious oranges. Mr. Hopper received the annual gift a day or two since and they are excellent as usual.

CHRISTIAN CHURCH WILL HAVE SCHOOL OF METHODS

The beautiful Quiver Lake Chautauqua grounds near Havana have been secured by District Field Worker O. C. Bolman for a six-day school of Methods and ministers' conference which is to be held July 28 to Aug. 3.

While this is planned as a district affair Sunday school workers from all over the state are invited. Coming as it does at the beginning of the ministers' vacation many ministers will plan to spend the week in this beautiful summer resort.

Sunday school teachers and officers will find the week both pleasant and profitable. The instructors will be of the highest type. Garry L. Cook of Indianapolis will be dean of the school. Mrs. Lida B. Pearce and other specialists will be on the teaching force.

The Central Christian church will no doubt send a large delegation.

The entire hotel building on the grounds will be reserved and the rooms will be rented at 50 cents a day. Over 50 cottages are on the grounds and can be rented by families desiring to go. Reservations can be made as soon as you notify me.

BACK FROM THE SOUTH

Mr. and Mrs. Frank Elliott have returned from a sojourn of a few weeks in the south and later in the Buckeye state. In Dixie they spent several weeks at Augusta, the capital of Georgia, and were much pleased with it as a place for rest and quiet. There is a fine hotel and great opportunities for golfers to enjoy their favorite game. From Augusta they proceeded to Cleveland, O., for a visit with Mrs. Elliott's brother, Judge William B. Sanders, formerly of this city and now an eminent jurist in the beautiful city by the lake.

The travelers are much refreshed by their trip and return greatly pleased with their outing.

MARRIAGE AND DIVORCE

This evening Rev. Fr. Cahill will speak on marriage and divorce, a subject for lenient services. A timely topic and one which should have a careful hearing.

Young Men Know Good Style

They can't define it always, but they sense it in the rakishness of an automobile, in the layout of an ad., in the "look" of their own clothes.

Get your cue from them. They know they get style here at this store; they see it in the new waist-seam styles, single and double breasted

**Hart Schaffner &

BETTER HEALTH WORK INTEREST INCREASES

Crusaders With Rank as Squires
Proud of Their Record—Report
for Various Schools Given.

Interest in the Health Work spreads thru the county. A request has come from Mr. Mounce, Principal of the school at Franklin, for supplies for all children there. It is, of course, too late

for Franklin to enter the National Tournament, so that they are taking up the work solely for the better health of the children and community.

The interest of the children who are already engaged in the work seems to increase as the weeks pass. Little Josephine Potts of the 2nd grade at the Washington school, who has just gone to Oregon with her aunt, Miss Mabel Potts, for a year or more has taken her chore folder with her and wants to be kept on the Roll of Health Knighthood here, in case they are not doing this work out there. Such interest is splendid and is most gratifying to those in charge of the work.

The first five weeks of the Tournament ended Saturday evening, March 15, and Jacksonville now has many proud Health Crusade Squires. Each child who has performed 54 health chores out of the 72 chores listed for each of these five weeks, has received the Squire's button and the title of Squire. This is no small honor. It signifies steady attention to these health rules during five consecutive weeks, and it has not been easy for some of the children. The mother of one of the boys at the Josephine Milligan school told the following. On the first day of the health work, her boy took a wet washcloth in one hand, a cake of soap in the other and sat down on a chair. "Mother," he said, "I've got to do it and I'm going to do it, but I don't know how I'm going to do it!" He sat there trying to screw up his courage for five minutes, and then—he washed his neck!

100 Per Cent Record.
We learn that in this health work these Josephine Milligan children are living up to their motto "100 Per Cent in Everything," for they have done 100 per cent health chores. The Franklin school is also to be congratulated. 100 Per Cent Squires in every room but one! And Bravo for the Independence school! 100 Per Cent Squires!

As each class or grade in a school has the opportunity of winning a pennant, it was thought it would be interesting to publish the Squire report from each class rather than from the school as a whole. The report follows:

Josephine Milligan school—Miss Hammond, Principal, 100 Per Cent Squires.
